Ordinary non-extreme El Niño composite: ERA5 precipitation and 850 hPa wind

Composite years: 1986, 1991, 1994, 2002, 2004, 2006, 2009. Same monthly anomaly and detrending method; ERA5 precipitation/wind baseline 1980-2014. Each panel's wind-vector reference is 4 m s^{-1}.
